FEEDING DIRECTIONS

This is a complete starter & grower for lambs. Start lambs on this feed by feeding hay and gradually increasing allotment of this feed until full feed is achieved. Feed continuously 1 to 4.6 pounds of feed to provide not less than 15 mg nor more than 70 mg of Lasalocid per head per day depending on body weight. Usually 10 - 14 days is sufficient to achieve a full feed schedule.

CAUTION:----- The safety of Lasalocid for use in unapproved species has not been established. Do not allow horses or other equines access to feeds containing Lasalocid as ingestion may be fatal.
